Sir,

Subject - Estimate for Rs 3175/- for providing water supply to the Veterinary Dispensary Building, Hoskote

With reference to your letter No W 17475/47 R dated 26-6-1947 on the above subject and in continuation of this office letter of even number dated 19-12-1947, I have the honour to state that the Sanitary Engineer, Bureau of Sanitary Engineering in his letter No 928 dated 12/13-3-48 states that 1200 feet galvanised Iron pipe of ¾" diameter is required for giving tap connection to the Veterinary Dispensary Building from the pipe line that feeds the Travellers Bunglow The cost of galvanised Iron pipe of ¾" being Rs 2-4-0 per running foot, Rs 2700/- is provided for the cost of pipes Further a sum of Rs 475/- is provided for other works such as laying the pipes etc The sanitary Engineer states that the above costs cannot be reduced in view of the abnormal rise in the cost of Galvanised Iron pipes

2 As regards the alternative for the above tap connection suggested in your letter that is sinking a well at about a cost of Rs 1000/- I write to state that the president, Hosakote Municipality reports in his No C 24(4)/47-48 dated 16-11-1947, that a well was in fact sunk in the premises of the Veterinary Dispensary and that the Public Works Department who sunk the well abandoned the same, since water could not be found in it even at great depth The Municipal President further reports that there is a real necessity for giving Tap connection to the Veterinary Dispensary

3 As regards the District Board quota, amounting to Rs 1058-5-4, the President, District Board wrote so far back as on 15-1-1948 (No Cz Gl 1606/47-48) that the matter would be placed before the Board and its views intimated but has not so far intimated anything in the matter though reminded on 10-3-1948.

4 Under the above circumstances I request that sanction of Government may kindly be accorded to the resolution of the Hoskote Municipal Council, for the payment of their quota Rs 1058-5-4 for the above works. The connected file and a copy of sanitary engineer's letter is herewith enclosed for kind reference. The estimate and connected records are enclosed.

I have the honour to be,
Sir,
